Product: Craftmaster Synthetic Thinners

Sizes Available: 1 Litre & 5 Litre tins

Colour:

Description: Craftmaster Synthetic Thinners is a proprietry Thinner for use with synthetic paints in the Craftmaster Range. Refer to individual product data sheets or Craftmaster for specific usage details

Excessive use of this additive will lead to reduced dry film thickness which must be taken into account when used. A reduced dry film thickness can lead to a greatly reduced longevity of the final paint finish leading to premature failure.

Do not use as a Brushing Thinner

Please Note: It is for the end user to ensure that this product is applied in the correct manner and to the correct standard. Craftmaster Paints Ltd can take no responsibility for faults in paint that is applied in conditions unsuited to painting or paint that has been improperly applied (either the method of application, use of unauthorised additives, insufficient paint build, or other practices which are not conducive to the successful application of our products). We strongly advise all users to consult both our Standard Paint Specification before applying any paint.
